

About D3

D3 – Domain Due Diligence is a SaaS platform that delivers audit-grade domain and brand intelligence to M&A; advisors, legal teams, investors and compliance professionals. Operating across 17 authoritative data sources — from DNS resolvers and RDAP registrars to ICANN zone files and trademark registries — D3 produces SHA-256 signed, timestamped reports within minutes.

The output is a D3 Certified Report: a structured evidence document designed to be annexed to transaction documents, regulatory submissions and legal filings. D3 is developed and operated by Veniatis, a company registered in the Netherlands.

Key Facts & Figures

978 TLDs scannable	350M+ Domains monitored	17 Authoritative data sources
4 Analysis products	SHA-256 Signed reports	NIS2 + ISO 27001 Compliance mapped

Products & Pricing

Product	Credits	Description
D3 Explorer EXPLORER	5 credits	Brand name availability, conflict check and defensibility analysis. Multi-TLD availability matrix and lookalike domain landscape.
D3 Security Audit SECURITY AUDIT	7 credits	Technical DNS and email security audit. SPF, DKIM, DMARC, DNSSEC, MTA-STX. Findings mapped to NIS2 Article 21, ISO 27001:2022 and PCI DSS 4.0.
D3 Valuation VALUATION	12 credits	Brand & domain value assessment for pre-acquisition decisions. Interprets DNS health, reputation signals and typosquatting landscape through a commercial valuation lens.
D3 Due Diligence DUE DILIGENCE	20 credits	Complete risk inventory for M&A; licensing and partnership transactions. All connectors in full. Every finding mapped to legal exposure and compliance gaps. SHA-256 signed evidence bundle included.

Credits are prepaid. Starter pack: 10 credits for €10. Credits never expire while account is active. New accounts receive 3 free trial credits.

Founder Statement

"When a lawyer is about to advise on a multi-million euro acquisition, or a brand strategist is about to recommend a name that a client will build an entire company around, they deserve certainty — not a screenshot of a WHOIS lookup. D3 exists to close that gap."

— Tom Geisink, Founder — Veniatis / D3
